STATE CLEARINGHOUSE

NEWSLETTER

March 1 through 15, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **March 1 through 15, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

CEQA Cases

Case Name (No.):	<i>City of Redlands v. County of San Bernardino</i> (E028515)
Court, Filing Date:	Cal. App. 4 th /2, 02/22/2002
Source:	2002 Daily Journal D.A.R. 2073
Summary of Ruling:	Order and Opinion—County improperly approved land use amendment without first preparing environmental impact report.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

Federal Notices

Intergovernmental Review Notices (March 1st – 15th)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

Agency:	Federal Energy Regulatory Commission
Contact:	Bob Easton
Telephone:	(202) 219-2782
E-mail:	N/A
Address:	888 First Street, NE, Washington, D.C. 20426
Description:	In a letter to the National Marine Fisheries Service, dated February 22, 2002, the Commission referenced a request to continue testing of a temporary overflow spill gate for juvenile salmon and steelhead passage at the Wanapum Development. The Commission concluded that no additional Endangered Species Act (ESA) consultation with the National Marine Fisheries Service is necessary because the testing satisfies the requirements of section 7(d) of the ESA.

CEQA Documents

Key for abbreviations of Document Type :

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Friday, March 01, 2002</u>			
2002031006	Tribal Building and Maintenance Facility Relocation Agua Caliente Band of Cahuilla Indians Palm Springs--Riverside The project is located south of the intersection of South Palm Canyon Drive and Acanto Drive and to the easterly terminus of Old Rincon Village Road (now under construction). The site is approximately 7.0 acres and contains the Maintenance Facility that is to be relocated and replaced by new structures. The new structures will measure 36' x 150' (5,400 square feet) storage for vehicles, and the smaller structure will measure 34' x 56' (1,900 sf) that will provide office space. The proposed Tribal Building, consisting of 9,500 sf of floor area, will include a lodge room, dining area, Council room, multi-purpose room and kitchen. The building will accommodate approximately 500 people and will be utilized for weddings, holiday functions, special occasions and other events as needed.	CON	03/28/2002
2002034001	AAFES Base Exchange Facility U.S. Air Force El Segundo--Los Angeles The purpose of the Proposed Action is to provide for an upgraded facility to replace the existing substandard Main Base Exchange (MBE) that will meet the commercial needs of military personnel and their dependents at Los Angeles Air Force Base (LAAFB). The Proposed Action would involve the construction of up to 93,925 square feet (SF) of space to accommodate retail and commercial services as well as Base administrative functions at LAAFB located at 2400 E. El Segundo Boulevard in the City of El Segundo. Services would include a military clothing sales store (MCSS), a Class Six store, a food court, mainstore base exchange, and mall circulation. The proposed action would replace approximately 380 existing parking spaces and would involve demolition of Buildings 241 (Security Police Operations and Heating Plant), 242 (Gymnasium and Warehouse/Equipment Storage), 243 (Office of Special Investigations/Thrift Shop/Environmental Engineering), and 244 (MBE). It is anticipated that the new facility would generate approximately 475 additional trips per day to the base, the majority of which would be the Aviation Boulevard and El Segundo Boulevard intersection.	EA	03/25/2002
2001121108	Camarillo Library Camarillo, City of Camarillo--Ventura Development of a one- or two-story 65,000-square-foot library with a total of 195 parking spaces on approximately 3.1 to 3.8 acres of a 10.0-acre site.	EIR	04/15/2002
1996042044	Pine Flat Dam Fish and Wildlife Habitat Restoration Investigation, California Kings County --Fresno Final Feasibility report and final EIS/EIR for the Pine Flat Dam Fish and Wildlife Habitat Restoration Project.	FIN	03/30/2002

	<p>landslide by removing and then re-compacting the stockpiled/landslide materials as a buttress fill within an approximately 88-acre area that includes the existing Prima Deshecha Canada stream. This action would allow for future landfill operations (i.e., Phase B) within the remediated area. In addition, the Prima Deshecha Caflada stream will be relocated to the south into a new 85 to 101-foot-wide stream channel on fill within the landslide remediation area. The new stream bed will consist of a 7.5-foot thick coarse-grained alluvial-like material underlain with a low permeability liner/impervious clay layer and will be planted with 7.1 acres of riparian/wetland habitat to offset project impacts (referred to as Site A). A series of 4 foot-high gabion channel stabilizers will also be constructed in the new stream channel to stabilize and maximize water infiltration into the stream bed. The landslide remediation project will take approximately one year to complete and subsequent Phase B landfill operations within the remediated area will take approximately five years to complete. Permanent impacts to the stream total approximately 3.26 acres of stream and riparian habitat.</p>

	Project in Alameda Creek in the City of Fremont, Alameda County. The California Department of Fish and Game is executing a Lake and Strambled Alteration Agreement Number R3-200100213 pursuant to Section 1601 of the Fish and Game Code to the project operator, Jessie Gill/Union Sanitary District.		
2001061032	Norwalk Redevelopment Project Area No. 3 Adoption, Amendment, and Merger Norwalk, City of Norwalk--Los Angeles The Project involves the adoption of a proposed Redevelopment Plan for Norwalk Redevelopment Project Area No. 3, and amendment of the two existing Redevelopment Plans for the two existing project areas to extend certain time limits, and the merger of all three project areas. Although no development or construction is proposed at this time, the continued implementation of the existing Redevelopment Plans, as well as the proposed Redevelopment Plan, is expected to facilitate commercial, industrial/manufacturing and residential development in the Project Areas in conformance with the Norwalk General Plan, to address various environmental issues, and to mitigate existing public infrastructure system deficiencies. The primary purpose of the Redevelopment Plans continue to be the elimination of physical and economic blighting conditions that hinder the full development of the Project Areas.	NOD	
2001061129	Rice Avenue/U.S. 101 Interchange Improvement Project Oxnard, City of Oxnard--Ventura The City of Oxnard in cooperation with California Department of Transportation (Caltrans) proposes to improve the Rice Avenue/U.S. 101 Interchange. Proposed improvements include reconstruction and widening of the existing Rice Avenue overcrossing from two to six lanes, reconfiguration of the existing U.S. 101 on- and off-ramps, and the realignment of Ventura Boulevard. The project limits on Rice Avenue/Santa Clara Avenue extend from approximately Gonzales Road on the south to just north of Auto Center Drive. Improvements on U.S. 101 to accommodate the interchange reconstruction would extend from approximately Almond Drive on the east (KP 31.4) to just west of Pasco Mercado (KP 33.4).	NOD

2002038138	Stream Alteration Agreement No. R4-2001-0195; Cantua Creek/Cantua Creek Flood Basin Maintenance Fish & Game #4 --Fresno DWR proposes the following scope of work: Approximately 250 linear feet of levee will be removed from both sides of Cantua Creek starting approximately 400 feet west of the California Aqueduct. Approximately 400 linear feet of levee will be removed from the south side of Cantua Creek between the western embankment of the California Aqueduct and Cantua Creek. Approximately 1500 linear feet of levee will be removed from a levee that runs west of and parallel to the California Aqueduct embankment. Excavated material will be spread on the California Aqueduct embankment or on adjacent agricultural land.	NOE	
2002038139	Monterey County Parks-Restroom/Shower Facility and Site Improvements Monterey County --Monterey The purpose of the proposed project will provide for the construction of a +/- 1000 sq ft restroom/shower facility at North Shore, Lake San Antonio Recreation Area. The restroom/shower building will be used by park users accessing Lake San Antonio's north shore camping points for water oriented recreational purposes. Currently, park users must travel to other camping points at North Shore to have access to restrooms without shower facilities. This is an added convenience for the camping public.	NOE

2002031018	Box Springs Antenna Tower University of California, Riverside Riverside, Moreno Valley--Riverside The University proposes to license the City of Riverside to build, operate and maintain a communications tower. The proposed project would involve construction of a 70-foot tall steel lattice self-supporting tower for the placement of radio and telecommunication antennas, including verticle pole-type antennas and four 6-foot diameter radio dishes. The tower footprint will be approximately 20 feet by 20 feet. In addition to the antenna tower, one 12 foot by 30 foot building will be constructed on-site using block or panel walls. The project will also include one propane-fueled (1,000 gallon) emergency generator.	Neg	04/03/2002
2002031019	Columbia Business Center Riverside, Planning Department, City of Riverside--Riverside The applicant is proposing to subdivide approximately 121.3 acres into 21 parcels for industrial/office uses in the Hunter Business Park Specific Plan area. The proposed parcels range in size from 4,900-square feet (for a booster station) to 13 acres in size. Parcels 18, 19, 20 and 21 are for street dedication purposes. This proposal also includes the construction of Columbia Avenue between Michigan Avenue and Palmyrita Avenue. Parcel size variances are requested for proposed parcel 14 which is only 4.3 acres in size and proposed parcel 17 which is only .11 acres in size where the Specific Plan requires a parcel size of five acres or greater in the Industrial Park District. Parcels as small as an acre are permitted when an overall development plan with a unified architectural theme and mutual parking and access agreements have been submitted and approved. Parcels as small as a half acre are permitted when a master plot plan and design guidelines are submitted and approved in conjunction with the Subdivision Map. In this instance, neither a development plan nor a master plot plan has been submitted with the proposed map so variances have been requested for these two parcels.	Neg	04/04/2002
2002031021	Olivenhain Municipal Water District Recycled Water System Southeast Regional Facilities Olivenhain Municipal Water District --San Diego The principal components of the project include a pump station and storage facility at the existing wastewater treatment plant in the 4S Ranch Specific Plan, a pump station and storage facility at the approved wastewater treatment plant in the Santa Fe Valley Specific Plan, and a connection to the OMWD's Raw Water Main Extension 153. Connecting pipelines between these facilities will be constructed entirely within existing rights-of-way and easements.	Neg	04/09/2002

	Bicknell Avenue. The proposed building located at 2012-24 Main Street involves the construction of a mixed-use building with 135,045 square feet of floor area including 112,604 square feet of residential use and 11,549 square feet of commercial use at the ground floor. The proposed four-story, 35 foot building will contain a total of 107 residential units (6 singles, 5 one-bedroom, 51 two bedrooms, 3 two-bedroom plus study units and 1 three-bedroom units) with a 290 space, three-level subterranean parking garage accessed from Bicknell Avenue.		
2001111015	Etchings Cell Site San Diego County San Diego--San Diego The project proposes a modification of an existing telecommunications facility operated by Pacific Bell Services. Nextel proposes to replace the existing wood monopole with a new monopole of the same height. The new monopole will be a co-location site for both companies. The additional Nextel antennas measure 1 foot wide by 4 feet in length. Eight of the new panel antennas will be added to the two existing PacBell omni antennas. Nextel also proposes a new enclosed equipment cabinet, measuring 10 feet by 20 feet.	NOD	
2001111038	Arlington Desalter Enhancement Project Santa Ana Watershed Project Authority Riverside, Norco--Riverside The objective of the proposed project is to construct upgrades to the Arlington Desalter and related facilities to produce potable water for sale to local water retailers. The proposed improvements have been designed to provide 7.4 MGD of potable water (from 8.9 MGD of raw production water), which requires various system improvements to deliver higher quality water on a reliable basis to the desired service areas. The project includes the Arlington Desalter enhancement, new groundwater well, a raw water line extension, a new potable water pipeline, emergency supply connections, and the Norco Pump Station modification.	NOD	
2001112097	6579 West 6th Street Grading Permit Sacramento County --Sacramento The proposed project consists of grading and minor drainage improvements on a gently undulating parcel of land. The proposed grading will allow for future use as a storage parking lot for an auto auction. The drainage improvements consist of construction and placement of a 36-inch drain pipe running east to west through the center of the property, connecting to an existing 36-inch culvert that passes under the railroad. Drain inlets and V-ditches will be constructed in locations that drain to the 36-inch main line. Additional drainage is proposed to the north using a 10-foot wide concrete v-gutter, allowing for overland release.	NOD	
2001121014	TM 5251, Cool Valley Ranch Tentative Subdivision, Log No. 01-02-051 San Diego County Department of Planning and Land Use --San Diego The project proposes a major subdivision of 14.48 acres (gross) into 6 residential lots ranging in size from approximately 2 to 2.5 acres (net). The subdivision is located on the west side of Cool Valley Ranch Road in the community of Valley Center, and access will be from Cool Valley Road and a new private road easement. Water will be received from the Valley Center Municipal Water District	NOD

2002032026	Elk Grove Unified School District, Pleasant Grove High School and Katherine L. Albiani Middle School Elk Grove Unified School District Elk Grove--Sacramento The EGUSD is responsible for providing sufficient elementary, middle, and high school capacity for the southern portion of Sacramento County encompassing 320 square miles. Because of rapid residential development, many existing high and middle schools in these areas exceed their capacity. The objective of the project is to provide needed public school facilities in accordance with EGUSD 1985 School Facilities Master Plan and Amendments.	NOP	04/04/2002
2002032041	BART Warm Springs Extension Project Supplemental Environmental Impact Report San Francisco Bay Area Rapid Transit District Fremont--Alameda On September 15, 1992, the BART Board of Directors certified a Final Environmental Impact Report (FEIR), adopted a Mitigation Monitoring Plan (MMP) and adopted a project for the BART Warm Springs Extension (WSX) consisting of a 5.4-mile, two-station extension of the existing BART system, with stations at Irvington and Warm Springs. The purpose of the adopted project was to extend BART service south of the Fremont BART Station to southern Alameda County. The adopted project has not been built. In conjunction with the recently passed ballot measure for the reauthorization of the Alameda County Transportation Sales Tax, a revised project consisting of a 5.4-mile, one-station extension is now being proposed. The certified FEIR must be reviewed, updated and supplemented as necessary, based on changes to the adopted project, changes to the study area, and changes to the State CEQA Guidelines since the original document was published and the project was adopted. An optional station at Washington Boulevard and Osgood Road in the Irvington District will also be evaluated. (The FEIR and MMP are available for review through Richard Wenzel, Project Director.)	NOP	04/04/2002

2002032037	<p>Pumice Valley Transfer Station Mono County --Mono</p> <p>The project involves the construction, permitting and operation of a municipal solid waste transfer station at the existing Pumice Valley disposal site. Upon completion, the Pumice Valley Transfer station will manage residential and commercial solid waste generated in its service area. The proposed improvements will be engineered structures designed to improve operational efficiency and provide long-term durability. Transfer station operations will involve the management and consolidation of municipal solid waste for temporary on-site storage prior to generally: 1) on-site processing; or 2) removal to an off-site facility for processing; or, 3) removal to a regional landfill for disposal. Site construction will consist of grading and earthwork, paved roadways, concrete slabs, foundations, curbs and retaining walls, drainage structures, gates, fencing, and safety railings. Facility infrastructure will also include a stationary compactor, truck scale with access ramps and inspection platform, scalehouse, generator, recycling storage areas and containers, a temporary household hazardous waste storage locker, and other related facilities. Field investigations indicate that a former disposal trench extends into a portion of the area proposed for development. To preserve structural integrity, excavation and removal of municipal solid waste previously buried in the former trench may be required prior to construction of some site improvements. Should waste be encountered during construction, it will be excavated to its full depth and re-located to the active disposal cell where it will be buried and covered with compacted soil in accordance with requirements specified in Title 27, CCR.</p>	Neg	04/10/2002

2001122107	<p>Draft Removal Action Workplan Howard Terminal/Port of Oakland</p> <p>Toxic Substances Control, Department of</p> <p>Oakland--Alameda</p> <p>The proposed project consists of a Removal Action Workplan (RAW) at Howard Terminal to address residual contamination from historic land use practices at the Site. The contaminants include petroleum hydrocarbons, metals, and cyanide. The proposed project activities include performance of a geophysical survey, they will be removed, or in the case of wells, closed. Soils excavated during tank or pipe removal will be properly disposed off-site and groundwater monitoring and cap maintenance will be performed on an annual basis. Also a deed restriction will be placed on a property limiting the Site use to industrial/commercial purposes only and requiring DTSC review and approval for any future construction plan, which may disturb the existing cap.</p>	NOD	
2002012024	<p>City of Palo Alto Landfill Changes in Hours of Operation</p> <p>Palo Alto, City of</p> <p>Palo Alto--Santa Clara</p> <p>The City of Palo Alto currently operates a landfill that is located at 2380 Embarcadero Road in Palo Alto, California. The facility is currently operating under a permit issued by the Santa Clara Environmental Resources Agency, Department of Environmental Health (SWIS 43-AM-0001; permit issued September 15, 1999). The solid waste facility permit allows the facility to accept an average of 200 tons per day of non-hazardous solid waste subject to conditions listed in the permit.</p>	NOD	
2002012050	<p>Water Treatment and Distribution Project</p> <p>Calistoga, City of</p> <p>Calistoga--Napa</p> <p>The project consists of four components: 1) replacement of an existing main with an approximately 10,100 foot long, ten-inch diameter main leading from the Kimball Treatment Plant to a connecting main at the intersection of Tubbs Lane and Myrtledale Road; 2) replacement of an obsolescent main with an approximately 5,200 foot long, ten-inch diameter main along Myrtledale Road/Grant Street; 3) Kimball Water Treatment Plan improvements to the clarifier, access to the clarifier, and adding flow meters and turbidimeters to the filter bank; and 4) Kimball Reservoir improvements, including construction of a flow measurement system on each of two creeks discharging into the reservoir, a flow meter on the diversion from the outlet tower to the treatment plant, a flow meter on the bypass line to Kimball Creek, and replacement of the wooden flashboards with an inflatable dam to provide for a safer means of containing additional water behind the dam after the winter flows have ceased and of regulating excess flows</p>	NOD

The SEIR will provide additional information to that discussed in the Wastewater Treatment Plant FEIR.</p>	NOP	04/08/2002
2002032048	<p>Port of Stockton West Complex Redevelopment Plan Stockton, Port of Stockton--San Joaquin</p> <p>The Port of Stockton West Complex (formerly Rough and Ready Island) is the portion of the Port located west of the San Joaquin River and south of the Deep Water Ship Channel, and is approximately 1,400 acres in size. The area was formerly used as a military base, however, the Navy is in the final process of transferring ownership of the land to the Port of Stockton. The redevelopment plan for this project is being prepared in conjunction with the anticipated final transfer of the property with the understanding that all associated mitigation measures and the conditions of transfer will be implemented. The City of Stockton's Department of Housing and Redevelopment has determined the area to be eligible for redevelopment funding pursuant to the California Redevelopment Law. The project area is a cohesive area bounded by water on all sides. The West Complex contains areas of distinct and similar land uses divided generally in the northern and southern halves of the island. The northern half is the industrial-developed area previously utilized by the military. The land contains blight characteristics and will be developed to meet the objectives of the Port. Three major distinctions in the project are associated with water, land use, and maritime activities. The EIR will examine the water activities at a project level of detail. These include, but are not limited to, dredging, placement of dredged materials, and shipping channel operations. This document will examine the maritime and land use actions at a program level of detail. It is anticipated that this document will adequately examine the maritime and land use actions and their potential impacts to the degree that subsequent CEQA documentation will be required.</p>	NOP	04/08/2002

2002032046	Paradise Transfer Station Mono County Paradise--Mono The project involves the construction and operation of a municipal solid waste transfer station at the existing Paradise Transfer Station. Upon completion, the Paradise Transfer Station will manage residential and commercial solid waste generated in its service area primarily through an open-top debris box. The proposed improvements will be engineered structures designed to improve operational efficiency and provide long term durability. Transfer station operations will involve the management consolidation of municipal solid waste for temporary on-site storage prior to removal to an off-site facility for processing or removal to a regional landfill for disposal. Site construction will consist of grading and earthwork, paved roadways, concrete slabs, foundations, curbs and retaining walls, drainage structures, gates, fencing, and safety railings. Facility infrastructure will also include a gatehouse, recycling storage containers, a temporary household hazardous waste storage locker, and other related facilities.	Neg	04/10/2002
2002032047	Soquel Subdivision Santa Cruz County --Santa Cruz The applicant proposes to create four single-family residential parcels ranging in size from 5,100 square feet to 5,957 sf, with one remainder parcel that contains one single-family dwelling. The remainder parcel is 46,660 sf. The applicant additionally proposes to construct four two-story single-family dwellings on the newly created lots and a cul-de-sac off of Soquel Drive for access to the new parcels. This project requires a Minor Land Division, Soils Report Review, Roadway/Roadside Exception, Riparian Exception, and a Preliminary Grading Approval to grade approximately 580 cubic yards. The project is located on the south side of Soquel Drive, approximately 100 feet east of Orchard Street, in the Soquel planning area.	Neg	04/10/2002

2002032052	State Route 29 and Coyote Creek Bridge Widening Caltrans #3 --Lake The California Department of Transportation proposes to improve traffic safety at the intersection of State Route 29 and Spruce Grove Road. Currently southbound traffic intending to turn east onto Spruce Grove Road must decelerate and stop within the southbound traffic lane. This introduces possible conflicts between motorists traveling in the southbound directions who do not intend to turn, as well as oncoming northbound traffic. The addition of a left-turn lane will provide a space for turning vehicles to wait until it is clear to proceed through the intersection. Coyote Creek Bridge will also need to be widened to accommodate the proposed improvements.	Neg	04/11/2002
2002032053	ZF #2002-027 Yolo County Planning & Public Works Department Woodland--Yolo Yolo County is proposing to construct a groundwater disposal system at the Yolo County Central Landfill. Use of offsite this system will eliminate the need for discharging treated groundwater offsite. (Currently, the landfill maintains and operates an onsite air stripper groundwater remediation system that removes the volatile organic compounds from the groundwater which is then discharged offsite to an irrigation ditch.) The disposal system will consist of a storage reservoir to hold the treated groundwater in the rainy season and a land application area that will be used to grow crops that uptake boron and selenium. These crops will be irrigated with the treated groundwater from the reservoir during the dry season. Monitoring will be required to ensure that the soil and groundwater are not impacted by boron and selenium.	Neg	04/08/2002
2001121144	Smoke Management Program Monterey Bay Unified Air Pollution Control District --Monterey, San Benito, Santa Cruz Proposed changes to the District's burn program to meet state requirements including annual registration of prescribed burns, revised applications, Smoke Management Plans, smoke monitoring, test burns, daily burn authorizations, Smoke Action Guidelines consideration of alternatives to burns, limitation on ozone precursor emissions, public notification, and rule revisions. 2002038293	Site Acquisition and Enlarge Parking Facility at Fresno Organizational Maintenance Shop (OMS) Military Department, CA. National Guard Fresno--Fresno The Department of Military proposes to purchase two adjacent parcels, comprised of 2.78 acres, adjacent to the Fresno Organizational Maintenance Shop. The land is needed for additional parking of military vehicles and is contiguous with existing maintenance shop parking area. Improvements to the site will include asphalt paving, striping, fencing, and lighting of the parking area. If necessary, storm water drainage will be included.	NOE	
2002038294	Lanterman Developmental Center Developmental Services, Department of Pomona--Los Angeles The proposed project at the Lanterman Developmental Center would replace the existing chiller system, which is outdated and in disrepair, with a more energy efficient system that will reduce costs. The project would replace four existing chillers, four cooling towers, and replace existing cooling tower pumps. The project will also remove, replace, and route underground chilled water distribution pipe in the areas associated with and between ten buildings at the center. The cooling tank to be installed is 71 feet in diameter and 41 feet high. No aesthetic impacts will be noted due to the similar size of the existing chiller tower height to the surrounding buildings within the Lanterman boundaries. This project would accommodate existing facility staff and patients, and would result in substantial reduction in maintenance costs for the Center.	NOE	
2002038352	Removal Action Workplan for San Leandro Boulevard Source Area Toxic Substances Control, Department of San Leandro--Alameda The project is the approval of a Removal Action Workplan (RAW) for the San Leandro Boulevard Source Area. elevated soil concentrations that will be addressed include up to 21 parts per million (ppm) of tetrachloroethylene (PCE) and 1.7 ppm trichloroethylene (TCE). Soil excavation is planned in two areas. One area is 10 X 10 feet and will be excavated down to a depth of 12 feet below ground surface (bgs). An adjacent area measuring 40 X 40 feet will also be excavated down to a depth of six feet bgs. A total of approximately 215 cubic yards of contaminated soil will be excavated from both areas. A similar quantity of clean fill will be used to refill the excavations and the areas will be restored to its original state. This removal action will reduce or eliminate a source of future groundwater contamination in the area.

2002031060	<p>Salinas River Watershed Regulatory Coordination and Permit Streamlining Monterey County Planning & Building Inspection --Monterey</p> <p>Amendments to the County of Monterey Grading and Erosion Control ordinances to reduce the existing regulatory requirements for obtaining County grading permits in agricultural areas of the Salinas River Watershed. The purpose of the amendments is to provide regulatory relief to landowners who are willing to participate in soil conservation and erosion control programs developed by Federal and local agencies. These amendments to Monterey County Code Sections 16.08.040 and 16.12.110 will result in the addition of grading and erosion control exceptions for those projects approved through Coastal Commission Federal Consistency Review and supported and monitored through the National Resources Conservation Service (NRCS) for conservation practices-typically erosion control and bank stabilization projects-within the Salinas River Watershed. The non-profit Sustainable Conservation agency has coordinated a streamlined permit process for such projects under the sponsorship of the aforementioned NRCS, the Regional Water Quality Control Board, the California Department of Fish and Game, the Army Corps of Engineers, the Resource Conservation District of Monterey County, and the Water Quality Protection Program of the Monterey Bay National Marine Sanctuary. The amendments will apply to willing landowners and applicants in all portions of the Salinas River watershed that lie within Monterey County. The watershed includes the Salinas River and its primary tributaries, the Arroyo Seco, Nacimiento, and San Antonio rivers. The waterways that may be affected under this program include: Alisal Slough; Arroyo Seco River (and its tributaries); Chalone Creek; Gabilan Creek (and its tributaries); Las Tablas Creek; Nacimiento River; Natividad Creek; Salinas River (and its tributaries); San Antonio River; San Marcos Creek; Santa Rita Creek; Temladero Slough (and its tributaries); Towne Creek; and Vaqueros Creek.</p>	Neg	04/11/2002

2002011070	Special Reorganization of the San Fernando Valley Area of the City of Los Angeles Los Angeles County Local Agency Formation Commission Los Angeles, City of--Los Angeles The Proposed Project consists of a special reorganization of the San Fernando Valley area of the City of Los Angeles. It would result in the formation of a new City as a separate municipal entity within a portion of what is now the City of Los Angeles. If LAFCO and the voters approve the proposed Valley Special Reorganization would no longer be part of the City of Los Angeles. Currently, proposals for special reorganization of the Harbor area and the Hollywood area of the City of Los Angeles are also pending before LAFCO. Environmental documentation for each proposal is being prepared.	EIR	04/29/2002
2002031071	Soledad Mission Shopping Center Soledad, City of Soledad--Monterey Rezoning: Change the Current designation from Highway Commercial (HC) to Community Commercial (CC). The project includes subdivision of six existing lots totaling 13.41 acres into seven lots. In addition, a lot-line adjustment is necessary to reconfigure the seven lots. A Conditional Use Permit to authorize development of the Soledad Mission Shopping Center which includes 126,632 square feet of building area, 587 parking spaces, landscaping, and related roadway improvements. The proposed project is a commercial shopping center which includes 126,632 square feet on approximately 12.18 acres. The project consists of six buildings that would provide retail and commercial space for 16 businesses, including a major food store chain, drugstore, hardware store, two fast food restaurants (with drive-in components), three or four restaurants, a clothing store, and miscellaneous retail and service businesses. Figure 5 illustrates the site plan that includes proposed location of new structures and parking areas. Major tenants would be placed on their respective parcels and these parcels may be sold to the retailer. The existing animal hospital on the west side of Nestles Road near Fourth Street will be removed to accommodate the proposed project.	EIR	04/29/2002

1991073040	Yolo County Central Landfill Permit Revisions Yolo County --Yolo The Yolo County Central Landfill (YCCL) is a municipal solid waste landfill located in an unincorporated part of Yolo County about four miles northeast of Davis, and three miles southeast of Woodland, near the intersection of Roads 28H and 104. Division of Integrated Waste Management (DIWM) is proposing several major changes to the design and operation of the YCCL. Several of these changes will require revisions to the facility's existing permits, including the Solid Waste Facility Permit, the Waste Discharge Requirements, and the Permit to Operate. Because approval of these permit revisions requires discretionary actions by public bodies the project is subject to the California Environmental Quality Act (CEQA).	NOP	04/12/2002
2002031073	La Jolla Centre III & IV San Diego, City of San Diego--San Diego Community Plan Amendment/Rezone/Planned Commercial Development Amendment/Planned Development Permit/Site Development Permit/Street Dedication to develop 6.28 acre site with two office towers (9.16 stories) for a total office space of 547,228 sq.ft., two subterranean parking structures for 1,872 vehicles are proposed.	NOP	04/12/2002
2002032082	Carter Street Hillside Residential Development Daly City Daly City--San Mateo The residential development project is proposed with a range of 160 to 182 units of multi-family development. The subject site consists of 19 acres with 35 parcels. The units are proposed clustered in the northeasterly, downhill portion of the site. The site is 19 acres of which 9 will be left in open space. The units would range in size from 895 to 1,723 square feet and contain two or three bedrooms. Of the 170 units, 46 would be two-bedroom units and 124 would be 3-bedroom units. The project would also include a 3,000 square foot clubhouse/recreation room. The project would provide a total of 353 parking spaces, including 160 covered spaces and 193 open parking spaces.	NOP	04/12/2002
2002032088	South Sacramento Phase 2 Corridor Sacramento Regional Transit District Sacramento--Sacramento The South Sacramento Phase 2 Corridor is a proposed approximately five-mile extension of the Sacramento Light Rail South Line from its current terminus at Meadowview Road to Calvine/Auberry and a supporting feeder bus system. To date, five stations have been identified at Franklin Boulevard, Center Parkway (optional), Cosumnes River College/College Square, Power Inn Road (optional), and Calvine/Auberry. The proposed extension would follow the UPRR right of way south of Meadowview Road, turn east along the proposed extension of Cosumnes River Boulevard, follow the Boulevard to Bruceville Road, turn south to serve Cosumnes River College/College Square Development, turn east to cross State Route 99, and terminate at a station at Calvine/Auberry. A trail of approximately 3,000 feet long would be developed starting at a trail head with denoted markers along the trail, identifying various points of interest concerning types of native plants and habitat and providing historical accounts of the area. Incidental recreational benefits would be provided including hiking, bird and wildlife watching and the overall wildlife experience.	NOE	
2002038325	Temescal Hydroelectric Plant Annual Maintenance Metropolitan Water District of Southern California Corona--Riverside The Metropolitan Water District of Southern California (Metropolitan) is proposing maintenance and testing on switchyard equipment, generator, turbine, and auxiliary systems. The work will entail electrical and mechanical checks on equipment at the power plant. The work will take place in the switchyard, the control room, and the generator room. During the dewatering of the facility, approximately 160,000 gallons of water will be released into an existing unlined stream. However, no impacts will occur to the existing unlined streambed.	NOE	
2002038326	Assessment of Occurrences and Sources of Microbial Contamination in the Sacramento-San Joaquin Delta Region Metropolitan Water District of Southern California --Yolo, Solano, Contra Costa, Alameda, Sacramento, ... Metropolitan proposes to conduct microbial monitoring within the Delta region to determine the level and potential sources of contamination. The proposed project would aid in the determination of the effects of water quality of passage through a heavily degraded ecosystem that is impacted by seawater intrusion, agricultural runoff, and increasing urban development.	NOE	
2002038327	Study of the Integration of Ultraviolet Light Into Water Treatment Processes Metropolitan Water District of Southern California La Verne--Los Angeles Metropolitan proposes to study the use of UV light at Weymouth Filtration Plant, in combination with water treatment oxidants such as chlorine, ozone, and chlorine dioxide, to perform particulate removal, disinfection, disinfection by-product (DBP) minimization, and oxidation of micropollutants.	NOE

2001012046	Sheldon Road/State Route 99 Interchange Improvement Project Elk Grove, City of Elk Grove--Sacramento The project represents modification to the existing Sheldon Road/State Route 99 interchange to create a partial cloverleaf design. The proposed project would completely replace the current interchange. The hook ramps would be removed and the overcrossing would be replaced. The reconstruction and widening of Sheldon Road would extend from the existing intersections with East and West Stockton Boulevard to the project limit where the improvements will adjoin future improvements by others. This project is intended to correct existing operational deficiencies and to accommodate increased traffic demand generated by approved and proposed development.	EIR	04/29/2002
2001022071	Downtown San Jose Mixed Use Project and Century Center Plan Amendment Area San Jose, City of San Jose--Santa Clara The proposed project consists of a multi-parcel mixed-use project comprised of 3.8 million square feet of retail, entertainment, residential, and office uses as well as a 31-acre expansion of the Century Center Redevelopment Project Area.	EIR	04/29/2002
2001112025	Laguna Vista Mixed-Use Development Sebastopol, City of Sebastopol--Sonoma The proposed project consists of construction of 182 dwelling units at a variety of densities, product types and sales prices (including affordable dwellings), office use (7,700 square feet), a restaurant (3,200 square feet) and general retail uses (5,400 square feet). The project also includes construction of on-site private streets, parking spaces, recreation and open space uses and a recreated wetland/open space area of approximately 5.5 acres of land on the east side of the project site. Utilities would be extended to the site from surrounding properties to support proposed land uses. Requested land use entitlements from the City of Sebastopol includes a Planned Community (PC) rezoning and use permit to allow land use flexibility in terms of development standards, Design Review by the City of Sebastopol and a minor subdivision. A Development Agreement is also under consideration.	EIR	04/15/2002

2001121064	NanoSystems and Engineering Facilities Plan University of California, Los Angeles Los Angeles, City of--Los Angeles The University of California, Los Angeles proposes to construct two facilities in the Core campus zone. One facility is proposed to house the newly created NanoSystems Institute to accommodate research initiatives in the emerging field of nanosystems. The second facility is proposed to replace the existing Engineering 1 building to accommodate engineering teaching and research functions currently located in the existing Engineering 1 building. This building has been scheduled for replacement due to costly seismic upgrades necessary for code compliance. The proposed NanoSystems building (approximately 180,000 gsf, 7-stories) would be located on the west side of the Court of Sciences, south of Boelter Hall. The main entrance would be from the Court of Sciences with three above grade levels designed to span over the top of Parking Structure 9. Project construction is anticipated to last for approximately 31 months beginning in the Fall of 2002. The Engineering 1 replacement facility (approximately 100,000 gsf, 4-5- stories) would be located on Westwood Plaza, south of Ackerman Union. Project construction is anticipated to last for approximately 35 months beginning in the Winter of 2003.	EIR	04/29/2002

2002031079	Heritage Valley Parks Specific Plan Draft Program EIR Fillmore, City of Fillmore--Ventura The proposed Heritage Valley Parks Specific Plan includes an application requesting approval of a Specific Plan for the 294.9 acre site, a General Plan Amendment for 236.9 acres of the site within the City's Sphere of Influence under the jurisdiction of Ventura County (from Ag-Exclusive 40-acre minimum lots to Specific Plan), a Zone Change for the remaining 58 acres within the City of Fillmore (from Residential Low Density to Specific Plan). The residential areas include approximately 750 dwelling units within 183.8 acres. The project design includes a total of 554 single-family dwelling units with a range of lot sizes. An additional 213 "paired homes" (townhomes) encompassing 6.1 acres will be provided. The proposed project will include 81 acres of parks, including a community park (with an optional public library), a nature park, an 11 acre elementary school site, and 1.5 acre fire substation. Approximately 17.6 acres will be reserved for flood control/levee construction.	NOP	04/15/2002
1991062040	Wheatland Middle School Wheatland School District Construct a new Middle School containing approximately 59,500 square feet. Project would be constructed in two phases: Phase 1 would total about 46,000 sf; and construction would begin in Summer 2002 with project completion in August 2003. Phase 2 would add an additional 13,500 sf of space, with construction planned for Summer 2004 and project completion in August 2005.	Neg	04/15/2002

	Creek have less than 100-year flood protection. During a 14-year of greater flood event, MCDC levees is overtopped and levees are outflanked during a 2-year or greater event. When more severe events occur, USACE is projecting extensive flooding along historic Magpie Creek, affecting residential, commercial, industrial, and public structures. USACE, SAFCA and The Reclamation Board are proposing to construct a project to protect existing structures from flooding up to the 170-year event. The proposed project includes: 1) construction of a floodwall (2,100 feet) along the top of the existing left bank levee of the MCDC; 2) construction of a levee (1,000 feet) along the west side of Raley Boulevard south from the Magpie Creek bridge; 3) Acquisition and protection of a 72-acre flood plain on the east and west sides of Raley Boulevard; 4) Construction of a culvert under the Sacramento Northern Railway embankment.		
1989051702	Construct High Occupancy Vehicle Lane On I-405 Caltrans, Planning --Los Angeles The project will add an HOV lane in both the northbound and southbound directions of I-405 between I-105 and State Route 90. Modifications include reconstructing the median shoulders, restriping to non-standard widths of 3.3m lanes, work on median drainages, and inclusion of CHP enforcement areas.	NOD	
1989092511	Wastewater Treatment Plant Expansion-Galt Galt, City of Galt--Sacramento The site consists of 180 acres of unimproved, vacant land that currently is divided into four fields used to grow and harvest feed for dairy cattle. The property will be used for disposal of secondary treated wastewater from the Galt Wastewater Treatment Plant. The site will be used in its current condition with minor changes. The current irrigation system will be fed by pumped secondary treated effluent from the treatment plant instead of using the untreated well water most of the time during the summer season. The crops to be raised will be used for animal feed.	NOD	
1995123032	LRDP Amendment No. 1, Mission Bay Housing University of California, Regents of the San Francisco--San Francisco The proposed project is to construct a new five-story facility of approximately 153,000 gross square feet to accommodate the headquarters of the California Institute for Bioengineering, Biotechnology and Quantitative Biomedical Research (QB3), a consortium of three campuses, led by UC Berkeley and UC Santa Cruz. The theme of the institute will be the application of quantitative sciences (mathematics, physics, chemistry, and engineering) to biomedical research.	NOD	
1999041114	Carpinteria Valley Greenhouse Study Santa Barbara County Carpinteria--Santa Barbara Proposes a program consisting of ordinance amendments and rezones applying to all agricultural land within the coastal zone of the Carpinteria Valley zoned AG-1 to two new agricultural zone districts (Zoning Ordinance Article II). Related amendments to the Local Coastal Program and County Agricultural Preserve Uniform Rules are also proposed. The AG-1-CARP (Expansion) zone would allow new greenhouse development to occur. The AG-1-OF (Open Field) zone would	NOD

	allow existing greenhouse uses to continue but would preclude any new greenhouse development. Both new zone districts would allow the continuation of all other agricultural uses that are currently allowed in the existing AG-1 zone. Adoption of the program could result in the buildout of 3.0 million square feet of new greenhouse development. Alternative programs are also evaluated in the DEIR.		
1999042079	Tourelot Remediation/Cleanup Project Toxic Substances Control, Department of Benicia--Solano The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement R3-2002-0010 pursuant to Section 1603 of the Fish and Game Code to the project applicant, Scott Goldie / Granite Management Corporation. The applicant proposes the removal of vegetation to 6 inches above the ground surface or to the water line if water is present in the South Valley Channel Wetland. The work will be accomplished by a tractor-towed, side-cutor device, or a hand-held, gas powered weed cutter where the ground is saturated or inundated, or too steep to use a tractor. The vegetation is being removed to accommodate a Multisensor Towed Array Detection System (MTADS) for the location and removal of Ordnance and Explosives anomalies. The project is located in the hills to the southeast of Lake Herman, in the City of Benicia in Solano County. Access to the site is at the intersection of Rose Drive and McAllister Drive, west of Second Street in the City of Benicia.	NOD	
2000081006	East Campus Student Apartments University of California, Irvine Irvine--Orange The proposed project would construct approximately 500 apartments and associated community facilities to accommodate undergraduate and graduate students. The approval covers Phase I of the project (approximately 500 apartments on 30 acres). The environmental document evaluates the anticipated ultimate project, which would be approximately 1,000 apartments (on 73 acres). Phase I of the project would consist of apartments and support facilities of varied elevations, not to exceed three stories in height, on approximately 30 acres in the East Campus area of the University of California, Irvine campus.	NOD	
2001041136	Fort Irwin Composting Facility San Bernardino County Land Use Services Department --San Bernardino Proposed permit for new facility located adjacent to existing landfill, boundary of the facility will encompass 6 acres, maximum daily loading of the proposed facility will be 6,000 cubic yards per day of green material, green wastes, yard trimmings, untreated wood wastes, and sewage sludge. A maximum of 30,000 cubic yards of green material will be diverted and processed with 1,000 cubic yards of sewage sludge per year.	NOD	
2001062063	Sycamore Grove Subdivision Sacramento County Elk Grove--Sacramento 1. A Community Plan Amendment and Rezone for 10.9+ acres from AR-10 (Agricultural-Residential 10-acre minimum lot size) to RD-3 (Residential Density-3	NOD

2002011111	Natural Sciences Unit 2 University of California, Irvine Irvine--Orange The Natural Sciences Unit 2 project consists of two buildings, totaling 85,460 assignable square feet (asf) on the University of California, Irvine campus. The project site is in the central portion of the campus, in the Physical Science Quadrangle part of the academic core area, just south of Aldrich Park. The Natural Sciences trailers, on the eastern side of Bison Avenue, at Ring Mall.	NOD	
2002012012	Stockton East Water District Peters Pipeline Project Stockton East Water District --San Joaquin The project will consist of the design and construction of approximately six miles of new pipeline; a connection to existing pipeline; connections from the new pipeline to agricultural and recharge facilities along its alignment, and at the pipelines terminus at an existing water treatment plant storage and recharge pond; other miscellaneous appurtenances required of the project; and the acquisition of approximately 8,900 feet of thirty-foot easements from private property owners for pipeline installation. The pipeline will be designed to receive 100 cubic feet per second of flow from the existing SEWD pipeline, which runs from the Lower Farmington Canal and terminates east of Mormon Slough. This flow will be provided to agricultural land along the pipeline route and to SEWD existing Water Treatment Plant (WTP). The completion date is anticipated to be November 30, 2002.	NOD	
2002012034	Asta Construction Mining Project Solano County Rio Vista--Solano For the removal of dredged sand and reclamation of the site located in an "A-160" Exclusive Agricultural Zoning District.	NOD	
2002012075	Proposed Southwest #1 Elementary School Site Ceres Unified School District Ceres--Stanislaus The proposed new elementary school will occupy the entire 9.41-acre site. The existing site is flat and presently in agricultural use with one single-family home, but is designated for low-density residential use in the City's General Plan. The total school population is planned for approximately 500 students; typical school buildings and uses will include classrooms, administrative offices, playgrounds, library, multi-purpose rooms, cafeteria, parking (for teachers, staff, and visitors) fire lanes, and landscaping. The buildings have not been designed or sited yet, but will be designed to comply with the California Department of Education's standards and all local zoning codes. In addition to the onsite school facilities, offsite road and sidewalk improvements will be developed, and water and sewer connections are planned. It should be noted that the Draft Initial Study reviewed three alternative sites (E #1, E #2, and E #3) generally in the same area. On January 10, 2002, the School Board determined that site E #1 was preferred and this Mitigated Negative Declaration is prepared for the E #1 site.	NOD

2002039014	Agreement No. R4-2001-0131; THP 4-01-49/FE-3 Fish & Game #4 --Fresno Create two permanent road crossings by creating a rocked ford on Glen Meadow Creek, and installing a 36-inch CMP across a tributary to Glen Meadow Creek.	NOD	
2002039015	Agreement No. R4-2001-0134; THP 4-01-008/FRE-1 Fish & Game #4 --Fresno Create two temporary road crossings by placing two 12-inch diameter CMPs on two separate tributaries to Dinkey Meadow Creek.	NOD	
2002039016	Agreement No. R4-2001-0108; THP No. 4-01-050/TUL-4 Fish & Game #4 --Tulare Improve two temporary road rock ford crossings on two separate tributaries to Rancheria Creek.	NOD	
2002039017	Agreement No. R4-2001-0106; THP 4-00-96/MAD-1 Fish & Game #4 --Madera Create a permanent road crossing by installing a 30-foot section of a 36-inch CMP across Watermelon Creek, a tributary to Lewis Creek.	NOD	
2002039027	Environmental Assessment 2001-431, General Plan Amendment 2001-080, Zone Change 2001-103 La Quinta, City of La Quinta--Riverside A General Plan Amendment and Zone Change to change 173.5 acres of currently designated Medium Density Residential land to Low Density Residential; 74.9 acres of Medium-High Density Residential to Medium Density Residential; 133.3 acres of Open Space to Golf Course; 10 acres of Commercial to Community Commercial; 4.2 acres of Commercial to Neighborhood Commercial; and 420 acres of Agriculture to Low Density Residential. All these changes are required as part of the annexation process by the Local Agency Formation Commission (LAFCO).	NOD	
2002028352	El Morro Leachfield Testing Wells(01/02-OC-14) Parks and Recreation, Department of --Orange Project consists of conducting hydrological analysis of an existing leach field for El Morro Trailer Park, by constructing groundwater monitoring wells at El Morro Beach up gradient from the existing leachwells under the beachfront access road, and two groundwater monitoring wells down gradient from existing leach fields in the canyon bottom. Canyon well will be in disturbed soil with no native vegetation; at both sites wells will be supported by 2" pipe, capped and located so vehicle/pedestrian access is not impeded. Sample holes will be immediately filled and recompactd.	NOE

<u>Documents Received on Friday, March 15, 2002</u>			
2002038329	Pelican Point Ramp Fencing and Revegetation Parks and Recreation, Department of --Orange Project consists of removal of existing failed fencing next to an archaeological site and replacement with temporary fencing placed along the adjacent concrete footpath to protect the cultural resource. The archaeological site is heavily eroded so native vegetation will be added to discourage foot traffic and occasional use as a homeless camp. Excavation and planting will be done by hand, and project will require the installation of up to ten t-posts to hold fence. Fence will be removed when vegetation matures.	NOE	
2002038331	Acceptance of Offers to Dedicate public access easements State Coastal Conservancy Avalon--Los Angeles Acceptance of an approximately 60 foot-wide lateral public access easement along shoreline, and vertical easement down bluff.	NOE	
2002038332	Petition for Extension of Time State Water Resources Control Board --Sonoma The existing project received a water permit (A025187, permit #16973, dated November 1, 1977) for the storage of up to 6.0 acre-feet per annum (AFA) in an on-stream reservoir. The reservoir was constructed to a capacity of 4.5 AF. Water was utilized for irrigation, recreation, stock-watering and fire protection. The property has been sold twice and the reservoir was not expanded to the permitted capacity. The current owner, TimberHill Ranch LLC, submitted a Petition for Extension of Time to develop full and beneficial use of the water authorized under the current permit. They intend on expanding the reservoir to its permitted capacity and to use the reservoir for fire protection and aesthetic purposes (non-consumptive uses).	NOE	
2002038333	Erosion Repair on Zone 2, Line B, in the Vicinity of 1960 Wingate Way, Hayward, CA Department of Fish and Game (OSPR) Hayward--Alameda The area on the upper bank has slumped and the back fence of the property at 1960 Wingate Way has fallen down the slope. Rip rap will be used to stabilize the 120 square meter area of bank. The rip rap will be keyed in above the poplar, without impacting the root system, placed on engineering fabric, and terraced up the slope. A 4-inch diameter PVC subdrain will be installed below the rip rap and the rip rap will be covered with a six inch layer of soil. This layer of soil will be seeded with an appropriate native seed mix and planted with low lying native shrubs. A coir matting will be placed at the base of the slide area for additional erosion control protection. Issuance of a Streambed Alteration Agreement Number R3-2002-0084 pursuant to Fish and Game Code Section 1601.	NOE	
2002038334	Medeiros Property-Western Watershed Study Area Santa Clara County San Jose--Santa Clara The Santa Clara County Open Space Authority has acquired a 718 acre property (Land of Medeiros) in order to maintain the open space character of the area for the public.	NOE

2002038335	Salvatierra Properties- Western Watershed Study Area Santa Clara County San Jose--Santa Clara The Santa Clara County Open Space Authority has acquired a 105 acre property (Land of Hong) contiguous to Calero County Park in order to maintain the open space character of the area for the public.	NOE	
2002038337	Craven Property-Western Watershed Study Area Santa Clara County San Jose--Santa Clara The Santa Clara County Open Space Authority has acquired a 248 acre property (Lands of Craven) contiguous to Almaden Reservoir in order to maintain the open space character of the area for the public.	NOE	
2002038338	Summer Dam at Healdsburg Veterans Memorial Beach Fish & Game #3 Healdsburg--Sonoma The Sonoma County Regional Parks Department proposes to continue to operate a summer dam, at Healdsburg Veterans Memorial Beach, on the Russian River near Healdsburg, Sonoma County. The dam is made of flashboards raised on an existing permanent foundation and has been installed annually since 1955. Prior to the construction of the existing dam, a dam of a different design had been constructed since 1905. To permit downstream migration of juvenile steelhead and salmon and upstream migration of American shad, flashboards are installed no earlier than June 26. The flashboards are removed immediately after Labor Day, about September 12 at the latest, to avoid impacts to upstream migrant chinook salmon. Issuance of a Streambed Alteration Agreement Number R3-2992-0079 pursuant to Fish and Game Code Section 1603.	NOE	
2002038339	Culvert Replacement Fish & Game #3 Yountville--Napa The project involves the replacement of three existing 12-inch culverts with two 18-inch and one 24-inch plastic culverts. Issuance of a Streambed Alteration Agreement Number R3-2002-0006 pursuant to Fish and Game Code Section 1601.	NOE	
2002038340	Marin Fish Passage Assessment State Coastal Conservancy --Marin Conduct an assessment of barriers obstructing passage of anadromous fish within the coastal watersheds of Marin County.	NOE	
2002038342	Alevtion Goose Wildlife Corridor Management Plan State Coastal Conservancy --Del Norte Develop and prepare to implement an Alevtion Goose wildlife corridor management plan.	NOE

2002038343	<p>Repair Camp Wilson Wastewater Treatment Plant Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert Twentynine Palms--San Bernardino</p> <p>The discharger proposes to construct a new secondary treatment package plant (package plant) to replace the existing oxidation pond system. The package plant will provide the needed treatment capacity for the existing service area. The package plant contains three treatment modules; each module has a primary clarifier, anaerobic reactor cell, aerobic reactor cell, and a final clarifier. The effluent from the secondary clarifier gravity flows through a partial flume and then to new infiltration/evaporative ponds for final disposal.</p>	NOE	
2002038344	<p>South Harbor Launch Ramp Refurbishment Santa Cruz Port District Santa Cruz--Santa Cruz</p> <p>Refurbishment of the existing boat launch facility with new concrete ramp apron and concrete ramp; new boarding floats, gangway and abutment. Construction in accordance with ADA guidelines.</p>	NOE	
2002038345	<p>Traffic Control Parks and Recreation, Department of --Sonoma</p> <p>Place posts and locally-quarried boulders along a gravel road and parking area that provides access to the north sector of the park unit. The gravel road is an extension of Lakeview Way. The project will prevent illegal vehicle access and protect park resources. All excavations will be monitored by a Department archeologist.</p>	NOE	
2002038346	<p>Shaded Fuel Break Parks and Recreation, Department of --Plumas</p> <p>Create a shaded fuel break by removal of brush only along a ridge running roughly parallel to County Road A-14. Approximately 60-70% of the brush cover will be removed. The fuel break will be 1.7 miles in length with a mean width of 50 feet. The width will vary by about 20 feet and be feathered to create a more natural appearance. The work will be performed by a tracked machine with a brush masticating head. The project will provide fire protection.</p>	NOE	
2002038347	<p>Bordwell Park Play Equipment Upgrade Riverside, Planning Department, City of Riverside--Riverside</p> <p>Remove existing play ground equipment and install new equipment of comparable size and design approximately 200 feet north of its present location. The intent of the replacement is to bring the park facility into compliance with Title 24 of the State Building Code. Current play equipment and play ground layout does not provide adequate access.</p>	NOE
